DETAILED ACTION

Response to Request for Reconsideration

1. The request for reconsideration filed August 17, 2006 has been entered and fully considered.
2. Claims 1, 5-9, 13-18 and 19 are present.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1, 5-9, 13-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- a. The counter "n" of formulae M-14 - M-17 in independent claim 1 is not defined. It is necessary for the counter "n" to be defined so that the subject matter is definite and distinct. Claims 5-9, 13-19 are dependent on claim 1.

Response to Arguments

5. Applicant's arguments filed August 17, 2006 with respect to the rejection under 35 USC 112, 2nd paragraph have been fully considered but they are not persuasive.

- a. Applicant argued that one of ordinary skill in the art would readily understand that the counter "n" in formulae M-14 to M-17 in independent claim 1 simply means any number of repeating units and pointed to the specification at page 6 in

support thereof. Applicant also submitted a copy of a Material Safety Data Sheet of commercial products, which correspond to the compounds of M-14 to M-17 in support thereof and excerpts from three encyclopedias. However, the Examiner maintains the rejection under 35 USC 112, 2nd paragraph is proper. The fact that the commercial MSDS does not define "n" as well does not preclude the fact that the claims are indefinite. The Examiner's position is supported by other Examiner's in the polymer art. Further, the Applicant is reminded of MPEP 2173: "The primary purpose of this requirement of definiteness of claim language is to ensure that the scope of the claims is clear so the public is informed of the boundaries of what constitutes infringement of the patent."

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
